### **Plan review**

North Point: no concerns at this time

Levittown Car Wash: no concerns at this time

Discussion continued regarding the utility of such reviews given that often by the time they are reviewed, variances have been granted. Wes will contact Denise or Diane to ensure the EAC is given plans as early as possible. He will review them himself and distribute to the team only those he believes they are worthy of further attention of the committee. The committee will inform the supervisors by letter requesting that any items of concern be considered.

The committee was receptive to receiving seedlings from Chip Taylor for distributions.

Jeannine worked with Erin and Rose to acquire pencils made from recycled paper and embossed with the "Falls Environmental Advisory Council." Thank you to Erin for this use of her discretionary fund!

Eileen will distribute old newsletters with a color write up on how to build spotted lantern fly traps. Phil will bring an old cat tree so the trap can be set up and displayed.
